Secure on line DATABASE is easily accessible to find information but is also completely secure, preventing any un-authorized changes from being made.

One-time, Life-time Registration with no annual fee or charges for changing listed information, including basic transfers of ownership.

COMPANION ANIMALS:

Dogs, Cats and all other companion animals should be permanently identified with a microchip. The Eidap process of ID information makes the record of a newly identified animal immediately available to all parties concerned, such as Veterinarians, Animal Shelters, Kennel Clubs or others that have a need to know. This will enable the animal to be returned to its owner in the most efficient manner and will provide secure tamper proof identification for the life of the animal.

EIDAP ANIMAL REGISTRY:

The Eidap Animal Registry is available 24 hours per day, 365 days per year via the Internet, or by a Toll Free phone call, providing all the necessary information needed to reunite a lost animal with its owner. This site uses the most current security technology and all information is completely confidential. The Eidap Animal Registry conforms to all current privacy legislation.
